

# WINTER

We all enjoy snow, water and its cycle, winter fruits (oranges, lemons), trees, Christmas and New Year.

Our visit in  
Romania, Scotland  
and Slovenia

Dimosio ke Kinotiko Nipiagogio Empas

We are  
celebrating  
with nature

COMENIUS PROGRAM

A program that showed that even if we are so far away and so different, we are still the same. Enjoy our journey with friends from Romania, Scotland, Slovenia and Turkey and see how we all are celebrating with nature.

# SPRING

We all celebrated the awakening of nature, the blossom of the flowers, the insects, Mother's Day, Carnival, Easter time.

# SUMMER

We learnt and celebrated the sea, its people, the fishes, salt, boats, sports, summer fruits, vegetables and travels.

# AUTUMN

Celebration with the change of the leaves, the change of the weather, the wine festival, the olive trees, the autumn flowers, chrysanthemums, the autumn fruits, apples, pears, pomegranates.

Through all seasons we learnt stories, myths about one another, songs, we heard music of each country and we danced their and our dances. We learnt the alphabet, we counted, we played, but the most important: we made friends and we saw that we are not alone in the world.
